

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Garpenberg Lead concentrate

Version number: 2.0  
Issued: 2023-01-20

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

**Trade name**

Garpenberg Lead concentrate

**CAS number**

-

**EC number**

310-127-6

**REACH registration number**

Not required - exempt from REACH registration. (UVCB)

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Relevant identified uses**

Raw material for metal production.

#### 1.3. Details of the supplier of the safety data sheet

**Supplier**

Boliden Mineral AB

Street address

Finnforsvägen 4

SE-936 81 Boliden

Sweden

Telephone

+46 910 77 40 00

Email

info.market@boliden.com

#### 1.4. Emergency telephone number

112. Emergency Action: In the event of a medical enquiry involving this product, please contact your doctor or local hospital accident and emergency department

See section 16 for country specific emergency phone numbers.

**Available outside office hours**

No

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Garpenberg Lead concentrate

**NEW** **BOLIDEN**

Version number: 2.0  
Issued: 2023-01-20

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

##### Classification

Acute toxicity, oral, hazard category 4  
Acute toxicity, inhalation, hazard category 4  
Carcinogenicity, hazard category 2  
Reproductive toxicity, hazard category 1A  
Specific Target Organ Toxicity — Repeated exposure, hazard category 1  
Hazardous to the aquatic environment — Chronic hazard category 2

##### Hazard statements

H302 + H332, H351, H360Df, H372, H411

#### 2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008

##### Hazard pictograms

##### Signal word

Danger

##### Hazard statements

H302 + H332 Harmful if swallowed or if inhaled  
H351 Suspected of causing cancer.  
H360Df May damage the unborn child. Suspected of damaging fertility  
H372 Causes damage to organs through prolonged or repeated exposure.  
H411 Toxic to aquatic life with long lasting effects.

##### Precautionary statements

P270 Do not eat, drink or smoke when using this product.  
P273 Avoid release to the environment.  
P280 Wear protective gloves/protective clothing/eye protection/face protection.  
P308 + P313 IF exposed or concerned: Get medical advice/attention.  
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

##### More information

Contains : Lead concentrate is a naturally occurring UVCB substance, obtained from crushed lead ore without chemical modifications, including: Lead, Zinc, Cadmium.

#### 2.3. Other hazards

No data available

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Garpenberg Lead concentrate

Version number: 2.0  
Issued: 2023-01-20

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Chemical name	CAS No. EC No. REACH No. Index No.	Concentration	Classification	H-pharse M factor acute M factor chronic	Note
Lead concentrate	- 310-127-6 - -	100%	Acute Tox. 4 - oral, Acute Tox. 4 - inhalation, Carc. 2, Repr. 1A, STOT RE 1, Aquatic Chronic 2	H302, H332, H351, H360Df, H372, H411 - -	-

#### Product based on

Lead concentrate is a UVCB substance, including (name (EG / CAS), concentration): Lead (231-100-4 / 7439-92-1) 60-76%, Zinc (231-175-3 / 7440-66-6) 1-15%, Cadmium (231-152-8 / 7440-43-9) 0-0.1%.

Description: Metal concentrate. (The metals are mostly bound as sulfides.)

This product is a concentrate, obtained from natural lead ore, without chemical modifications.

The lead concentrate consists of sulphide minerals, mostly Galena (PbS). The concentrate also contains small amounts of other minerals such as Pyrite (FeS<sub>2</sub>), Chalcopyrite (CuFeS<sub>2</sub>) and Zinc sulfide (ZnS).

#### Substance additional information

For the complete text of H- / EUH-statements mentioned in this section, see section 16.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

In the event of an accident: Contact a doctor or emergency department - bring the label or this safety data sheet. In case of persistent symptoms or if there is any doubt about the affected person's condition, seek medical help. Never give water or the like to an unconscious person.

#### Inhalation

Remove person to fresh air and keep comfortable for breathing. Keep under medical supervision for at least 48 hours.

In case of respiratory tract irritation, consult a physician.

#### Skin contact

Take off contaminated clothing and wash it before reuse.

IF ON SKIN: Wash with plenty of soap and water.

In case of skin reactions, consult a physician.

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Garpenberg Lead concentrate

Version number: 2.0  
Issued: 2023-01-20

### Eye contact

In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

In case of eye irritation consult an ophthalmologist.

### Ingestion

Drink milk or water. Contact a doctor if more than an insignificant amount has been swallowed.

### 4.2. Most important symptoms and effects, both acute and delayed

Carcinogenic effects:

The product contains substances that are considered, or have been proven, to be carcinogenic based on epidemiological studies or animal experiments.

Reproductive toxicity:

The product contains teratogenic substances that can cause permanent damage to human offspring. The effect on the child can be: malformations, delayed development or disability. The product contains substances that can damage the reproductive process, e.g. through damage to gametes or hormone regulation. The effect can be: sterility, reduced fertility, menstrual changes, etc.

### 4.3. Indication of any immediate medical attention and special treatment needed

In case of exposure or suspicion of exposure:

Seek medical attention immediately.

Information for doctors:

Show this safety data sheet.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

#### Suitable extinguishing media

The product is not flammable.

alcohol resistant foam, carbon dioxide (CO<sub>2</sub>), powder, water spray

#### Unsuitable extinguishing media

Full water jet

Water jet should not be used as it may spread the fire.

### 5.2. Special hazards arising from the substance or mixture

When heated to high temperatures, harmful fumes containing sulfur oxides and metal oxides can be formed.

### 5.3. Advice for firefighters

#### Special protective equipment for fire-fighters

Wear complete protective equipment including respirator.

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Garpenberg Lead concentrate

Version number: 2.0  
Issued: 2023-01-20

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid direct contact with spills.

#### 6.2. Environmental precautions

Avoid discharges into lakes, rivers, sewers, etc. Contact the local environmental authorities in the event of discharges into the surroundings.

Dispose of waste for waste collection, to prevent release to the environment. See section 8 for personal protection. Avoid direct contact with the product.

#### 6.3. Methods and material for containment and cleaning up

Spilled material is collected in a suitable container for removal.

#### 6.4. Reference to other sections

See section 13 for waste management. See section 8 for safety instructions.

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

##### Preventive handling precautions

Dispose of waste for waste collection, to prevent release to the environment. See section 8 for personal protection. Avoid direct contact with the product.

Do not expose to heat. Do not expose to sources of ignition. Do not swallow the product. Do not inhale dust from the product. Wear suitable protective clothing.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store the product so that emissions into the environment are prevented.

Storage temperature: No data available

#### 7.3. Specific end use(s)

This product should only be used for the uses described in section 1.2

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

##### Exposure limits

Professional users are covered by the work environment legislation's rules on maximum concentrations for exposure. See the occupational hygiene limit values.

National occupational exposure limits

Ingredient	CAS No. EC No.	Exposure limit ppm / mg/m <sup>3</sup>	Source	Remark	Year
Lead	7439-92-1 231-100-4	- 0.15	L132 Control of Lead at Work Regulations 2002 (Third edition)	-	-
Cadmium (as Cd)	7440-43-9 231-152-8	- 0.025	EH40/2005 Workplace exposure limits, Fourth edition 2020	Carc (cadmium metal, cadmium chloride, fluoride and sulphate)	-
Dust	- -	- 10	EH40/2005 Workplace exposure limits, Fourth edition 2020	inhalable dust	-
Dust	- -	- 4	EH40/2005 Workplace exposure limits, Fourth edition 2020	respirable dust	-

### 8.2. Exposure controls

#### Appropriate engineering controls

Compliance with the specified limit values should be checked regularly. Provide good ventilation. Ensure good industrial hygiene.

#### Exposure scenario

If there is an appendix to this safety data sheet, the exposure scenarios set out in the appendix must be followed.

#### Technical measures and storage conditions

Take general care when using the product. Avoid inhaling gas and dust. Well-ventilated areas are recommended.

#### Hygiene measures

At each break when using the product and at the end of the work, the exposed areas of the body should be washed. Always wash hands, forearms and face.

#### Eye / face protection

Wear approved goggles.  
Use only CE-marked or locally approved protective equipment.

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Garpenberg Lead concentrate

Version number: 2.0  
Issued: 2023-01-20

### Hand protection

Wear protective gloves.  
Use only CE-marked or locally approved protective equipment.

### Other skin protection

Wear clean protective clothing and suitable shoes.  
Use only CE-marked or locally approved protective equipment.

### Respiratory protection

Follow work routines that minimize dust formation. For certain parts, approved respiratory protection for dust may be needed. If the product develops smoke from oxidation, use an approved respirator for thermally generated particles and acid gases.  
Use only CE-marked or locally approved protective equipment.

### Environmental exposure controls

Follow the risk management measures that provide adequate control over the environmental exposure of the substance for the exposure scenarios set out in the Annex to the Safety Data Sheet (if such an Annex exists).

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

#### Physical state

solid

#### Colour

black

#### Odour

odourless

#### Melting point / freezing point

~900 °C

#### Boiling point or initial boiling point and boiling range

No data available

#### Flammability

No data available

#### Lower and upper explosion limit

No data available

#### Flash point

No data available

### Density and/or relative density

6.42 g/cm<sup>3</sup>

### Relative vapour density

No data available

## 9.2. Other information

No data available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The product is stable under storage at normal ambient temperatures.

### 10.2. Chemical stability

The product is stable under the conditions specified in section 7.

### 10.3. Possibility of hazardous reactions

Hazardous polymerisation does not occur

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Garpenberg Lead concentrate

Version number: 2.0  
Issued: 2023-01-20

### 10.4. Conditions to avoid

None under normal use.

Do not expose to heat. Do not expose to sources of ignition. Do not swallow the product. Do not inhale dust from the product. Wear suitable protective clothing.

### 10.5. Incompatible materials

Strong acids, strong bases, strong oxidizing agents and strong reducing agents.

### 10.6. Hazardous decomposition products

Does not decompose when used for intended uses.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

During normal handling of the product, no health risks should arise.

#### Acute toxicity

Metal sulphides can, when heated, release sulfur dioxide. Sulfur dioxide is irritating to the upper respiratory tract. In high concentrations it can be life threatening.

Heavy unintentional exposure to lead oxide may immediately increase the lead concentration in the blood.

When the product is heated, copper oxide and zinc oxide can form and cause metal smoke fever, a generally benign, transient, reversible flu-like condition.

Conditions and work routines that generate dust and smoke must be controlled or avoided.

Dust and smoke can cause adverse health effects.

#### Skin corrosion/irritation

Based on available data, the classification criteria are not met.

#### Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

#### Germ cell mutagenicity

Based on available data, the classification criteria are not met.

#### Carcinogenicity

Suspected of causing cancer.

#### Reproductive toxicity

May damage fertility or the unborn child.

#### STOT-single exposure

Based on available data, the classification criteria are not met.

#### STOT-repeated exposure

Causes organ damage.

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

## Garpenberg Lead concentrate

Version number: 2.0  
Issued: 2023-01-20

### Aspiration hazard

Based on available data, the classification criteria are not met.

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

Long term effects

Iron can cause a benign form of dust mite: siderosis.

Contains lead that can be absorbed by the body and lead to a risk of birth defects, but since lead sulphides have a very low solubility, the risk is considered to be low.

Uncontrolled repeated or prolonged exposure to this substance may cause damage to target organs.

Reproductive toxicity: The product contains teratogenic substances that can cause permanent damage to human offspring. The effect on the child can be: malformations, delayed development or disability.

Reproductive toxicity: The product contains substances that can damage the reproductive process, e.g. through damage to gametes or hormone regulation. The effect may be: sterility, reduced fertility, menstrual changes, etc.

Carcinogenic effects: The product contains substances that are considered, or have been proven, to be carcinogenic based on epidemiological studies or animal experiments.

### 11.2. Information on other hazards

No data available

## SECTION 12: Ecological information

### 12.1. Toxicity

The concentrate comes from the crushing and processing of natural materials. But in concentrated form, the product can have a significant impact on the local environment if transport waste occurs. Avoid contaminating watercourses.

### Acute fish toxicity

Product / Substance name CAS / EC no.	Measurement type	Value / Result	Duration of exposure	Endpoint of the test	Species	Remark
Lead concentrate / 310-127-6	LC50	0,116 mg/l	96h	-	Fish	Zinc
Lead concentrate / 310-127-6	LC50	0,017 mg/l	96h	-	Rainbow salmon	Copper
Lead concentrate / 310-127-6	LC50	0,14 mg/l	96h	Oncorhynchus mykiss (Rainbow trout)	-	Lead

# SAFETY DATA SHEET

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

### Acute algae toxicity

Product / Substance name CAS / EC no.	Measurement type	Value / Result	Duration of exposure	Species	Remark
Lead concentrate / 310-127-6	IC50	0,1 mg/l	72h	Algae	Iron.

### 12.2. Persistence and degradability

Not readily biodegradable (according to OECD criteria)

### 12.3. Bioaccumulative potential

No data available

### 12.4. Mobility in soil

No data available

### 12.5. Results of PBT and vPvB assessment

The PBT and vPvB criteria are not applicable to inorganic substances.

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

### 12.6. Endocrine disrupting properties

According to the currently available resources, there is no conclusive data on the endocrine-disrupting properties for this product and its constituents.

### 12.7. Other adverse effects

The product contains ecotoxic substances, which can have harmful effects on aquatic organisms.

The product contains substances that may cause long-term adverse effects in the aquatic environment due to degradation difficulties.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

#### Disposal considerations

This product is subject to hazardous waste regulations.

The product may cause harmful contamination of soil and water.

#### Packaging

The waste category is indicative and depends on the way in which the waste was created.

Packaging with residual content of the product must be discarded in the same way as the product.

#### Manufacturer's notes

It is recommended to disclose this SDS to the actual user of the product

The information in this SDS is based on our current knowledge. The information on the safety data sheets is based on the best available data and applies to the product's intended handling. This data sheet only applies to this product and may not be applicable if the product is used as an ingredient in another product.

If the product is used in another way or in an application other than the one for which the product was originally developed for, or recommended for, this is done entirely under the user's responsibility. The purpose of this SDS is to describe the safety requirements for the product. It must not be construed as a guarantee of the product's properties and the information may not replace a product sheet.
